HIGHLAND PARK GIRLS' BASKETBALL TEAM

The girls' basketball team of the Highland Park High School, shown in the above picture, has made an enviable record for itself this year. The team is well-balanced throughout, and its success is due to consistent and thorough team work, coupled with season, having only two more games.

Scheduled. They have played twelve games this year, winning ten, tying one and losing one. In the twolve games they have rolled up 293 points to their opponents' 109. This is an unsularly large score, taking into consideration that only the two forwards can shoot.

The new piece, which is described as superior to any piece in the German artillery, is a quickfire, fitted with compressed air brakes and large shields, protecting the feeders from the enemy's fire. The new gun clinches the French artillery's claim to be the finest in the world, in the opinion of James F. J. Archibald, the Washing-ton war correspondent, who is here after an automobile tour of the Balkans.

"For splendld mobility and individual initiative," he said to-day, "the French army is the finest in the world. France's compulsory service is a lesson for America. Our army is totally unprepared for war, which comes with terrible swiftness. The day is bound to come when compulsory service will supplement our volunteer force."

SPIDERS SUFFER FROM BAD WEATHER

With the grounds covered with snow almost a foot deep, the Spider squad has been forced to take an anwelcome and unneeded layoff from their baseball practice, which was just beginning to get well under way. The game that was scheduled for yesterday afternoon, of course, had to be called off, and from the present outlook it seems that a good many other games will have to be canceled unless the weather man gets on the job promptly and moits off the snow. The Spiders have a game schi-duled with William and another game on Wednesday afternoon with West Virginia Wesleyan University. Unless the weather clears up a great deal, these games will necessarily have to be played under great difficulties. It is hoped that the next few days will bring forth the right kind of weather to allow the squad to get in shape for the schedule that is to follow. The Spider squad has been picking up a good deal lately in practice, and while the general all-around work is noticeable. Coach Dobson is devoting a great deal of time to individual instruction among his men in the art of bunting, and is achieving some very gratifying results.

The batch of new men that were sent out to cope with the nine from Benedictino College did very well, considering the weather and all the difficulties they had to work under. They had nover played together before and hardly knew each other, but they put up a very good article by the particle of baseball and succeeded in winning the game. Three cruit, is showing up very well in the receiver's box. He is a big, husky fellow, and has a splendid pegging arm. In spite of his size, he is very fast, His batting also seems to be above the average. The two other candidates for the catching job are both working hard and showing up well. These men, Mercer and Pitts, will probably be given a chance to show their worth in some of the early games, at least.

In the box there is still an abundance of material, as far as quantity goes, but the quality deep not seem to

Liver Troubles Quickly Disappear

Peculiar Action of a Remarkable Remedy in Stimulating Liver Action.

There is no need to feel any alarm trouble, and for this reason the liver is held largely responsible. The liver is the largest organ of the body, and is not only a mass of threadlike blood vessels, but throughout its entire fabric is intimately associated with the digestive system.

The thing to do is to so stimulate the action of this myriad of blood vessels that each cellular part selects its own essential nutriment by health; and judicious divine discretion. This is accomplished by S. S. S., the most potent, the most active and the most naturally stimulating blood medicine known. You do not need purgatives; do not be alarmed at the presence of

sugar nor of so-called sedlment.

Just stick to S. S. S. and bear in mind that this celebrated remedy has such a stimulating action on the local cells of the liver as to preserve their mutual welfare and give each cell its proper relative assiriance. Dropsical tendencies, bilioueness,

daundice, malaria, afflictions of the spicen and glandular swellings will be eliminated. You will find S. S. on sale at all drug stores and for competent medical advice, free, consult by mail The Swift Specific Co., \$15
